NAME & SURNAME: **NUMBER:** **CLASS:**

Hello! I'm Jane and I'm thirteen years old. I'm from the UK. I study at Greenfield Secondary School. It's a really good school. Our teachers are very friendly and helpful. We have got lots of different subjects. I like language classes a lot. We study German and Spanish at school. I can speak these languages well. They are very easy for me, but my friend, Anna is bad at German and Spanish. Her favourite subjects are Science and Art because she is good at doing experiments and drawing pictures. I also like Maths a lot. I feel very happy when I solve difficult Maths problems. My favourite days are Tuesdays and Fridays because I have Maths on those days.
